

**Ms. Elena Brineman's Speech**  
**Aqueducts inauguration in Km. 15 and Libonao, Hato Mayor**

Ladies and Gentlemen:

Representing the Government and the people of the United States of America, I would like to express my pleasure in being here with you all during this very important event for your community, the inauguration of the pilot project and construction of these two water systems.

With the inauguration of these aqueducts in these communities, we conclude the pilot project that's given us a good example to follow throughout the country.

Thanks to the effective participation of different sectors such as National Institute of Potable Water and Sewage (INAPA), Women in Development (MUDE), Catholic Relief Services (CRS) and Dominican Church Social Service (SSID), we've achieved to fulfill this community's need. It's very rewarding to be part of one community on the achievement of one of the most important aspirations, access to potable water and sanitation

I am also very happy with the support from INAPA and the different NGOs. I would also like to encourage the community to keep up the good work and to keep the system working by paying your monthly bills and keep collaborating with the ONGs and INAPA to preserve your own good health conditions.

Thank you very much and have a great day to you all!
